

# *Rust Preventative* **Prevox 5000**

**Industry proven solvent  
Cut-back based water  
displacing rust preventative**

Prevox 5000 a solvent cut-back based rust preventative. This solvent-cutback rust preventative leaves a translucent to semi-transparent protective film after the evaporation of the petroleum solvent. In addition, Prevex 5000 offers the advantages of being easy to apply, easy to remove, and low in cost compared to many paint-type coatings. Rust preventives are not rust removers. They should be applied only to clean surfaces that are free of dirt, grease, oil, moisture, and rust.

## **Features**

- ◆ Outstanding Protection
- ◆ 6 –12 months indoor protection
- ◆ Easily removable protective film
- ◆ Simple Application
- ◆ Water displacing

## **Physical Properties**

TEST	SPECIFICATION
Specific Gravity	.79
Flash Point F	150 °F
Boiling Point	>300 °F
pH (Concentrate)	Essentially Neutral
Appearance	Clear Brown Liquid
Odor	Mild Petroleum

**(502) 363-5600**
